*Marine Camera Solutions*

Security threats and low visibility in poor conditions increases yacht vulnerability. Situational awareness and security under all conditions is an essential requirement.

The Seenite team, present a complete surveillance solution: SeaMoon cameras, they provide a complete premium yacht system for security monitoring, pilotage and blind spot monitoring. The ultimate in engineering and design, integrating the latest optical sensors.

SeaMoon cameras have been designed to be fitted in all parts of the vessel, both internally and externally on:

- Deckheads
- Mast spreaders
- Bathing platforms
- Engine rooms and galleys
- Passerelle
- Bridge
